DURAI PANDI

.NET Developer

Chennai, India | +91 8754179662 | erduraipandii@gmail.com | linkedin.com/in/duraipandi

PROFESSIONAL SUMMARY

.NET Developer with 4 years of experience building C#/.NET backend systems for email/SMS communication and Amazon seller platforms. Migrated a production mail-sending library to MailKit to improve delivery success and speed on Linux servers, and automated SMTP domain setup. Experienced in ASP.NET Core Web API, EF Core, SQL Server, third-party API integrations (KEEPA, Amazon SP-API, Google Sheets) and root-cause debugging of production issues. Seeking .NET Developer / Software Engineer roles.

CORE TECHNICAL SKILLS

Core: C#, .NET 9, .NET Core, ASP.NET Core Web API, ASP.NET Web API, REST APIs, OOP

Data: Microsoft SQL Server, MySQL, Redis, Entity Framework / EF Core, Dapper, LINQ, SQL, Query Optimization, Database Design

Integrations: KEEPA API, Amazon SP-API, Google Sheets API, SMTP, MailKit, Third-Party API Integration

Cloud, Servers & DevOps: AWS (EC2, Lambda), Linux Server, IIS, Windows Server, CI/CD (exposure), Production Deployment

Engineering: Production Support, Root-Cause Analysis, Debugging

PROFESSIONAL EXPERIENCE

Software Engineer | Resulticks Nov 2024 – Present

Product: RESUL – Customer Engagement & Communication Platform

- Migrated the mail-sending library from EASendMail to MailKit, improving email delivery success rate and sending speed on Linux-hosted production servers.
- Designed and built SMTP domain automation that streamlines domain configuration and reduces manual setup effort for outbound mail delivery.
- Develop and maintain C#/.NET workflows, REST APIs and database integrations that deliver transactional and marketing email and SMS for client campaigns.
- Diagnose and resolve client-reported issues and production bugs through root-cause analysis, minimizing disruption to message delivery and system uptime.
- Deploy code changes and application updates to Linux production servers, coordinating releases to keep downtime minimal.

Tech: C#, .NET, REST APIs, MailKit, SMTP, Linux

Software Engineer | Agilensmart Technology Solutions Pvt Ltd Oct 2022 – Oct 2024

Products: Amazon Seller Tools – KEEPA Integration, Competitor Intelligence, Analyzer Tools

- Built C#/.NET tools for Amazon FBA and merchant-fulfilled sellers, integrating KEEPA API, Amazon SP-API and Google Sheets API to automate product research, pricing and inventory workflows.
- Developed a product history tracker that accepts JSON queries and ASINs, retrieves data through KEEPA API and stores results in Google Sheets for analysis and reporting.
- Implemented stock and price management with Amazon SP-API, refreshing inventory, pricing and stock status from live product data and monitoring competitor listings.
- Automated the generation of feed files for Amazon Seller Central uploads.
- Created wholesale bulk analysis software that helps sellers identify profitable products.

Tech: C#, .NET, KEEPA API, Amazon SP-API, Google Sheets API, JSON

EDUCATION

B.E. in Computer Science and Engineering | Anna University April 2022

CGPA: 7.98/10
